

## 2017 CAPA Online Education Program Summary

The CAPA Online Education Program started January 2017 was a great success, thanks to our great speakers with their well-prepared presentations. The lecture series had 30 presentations with a total of 6997 attendees joined the meetings (average 233 attendees each webinar meeting). We have also invited 7 speakers to give expert special topic presentations with a total of 1815 attendees in these special lectures. The CAPA Online Education Subcommittee thanks every speaker for their great contributions to the Chinese American Pathologists Community and thanks all the attendees for their support of this program!

**HAPPY HOLIDAYS!**
